Other topics include torque converter operation, gear pack and power flow operation, vehicle interface, hydraulic control systems, and troubleshooting.

**NOTE: WBT = Web Based Training    ILT = Instructor Led Training**

An accredited training center is one that meets the factory training center's exacting specifications and requirements for facilities, equipment and tools. It is staffed by factory trained and accredited instructors. It is, in effect, an extension of the factory's service training program.

**Special classes may be scheduled on as needed basis. Contact the training department.**

Note: Tuition fees cover the cost of manuals and literature.
